Get seen and heard!

I met this wonderful author at a conference and she was an inspiration from the first words she spoke to me. Sheral's breakdown of FROGs and STORKs and a few other words empowered me to overcome some obsticles I've been stumbling over for years and years. Her easy to read stories were relatable and taught me how to help myself instead of getting in my own way. I have since purchased The Frog in Your Throat multiple times to give away as gifts, to my people who have been struggling to be heard and seen. This book makes a difference!
